

PET SHOP DOMINOS

This is a whole class activity that can be done in groups or pairs. Students are given a board and the pets/description and have to match the description to the correct pet and glue it to the board. They go horizontal across the top and the bottom and vertically along the sides.

When you (or the students) cut out the dominos make sure there is a picture AND a description on the domino (dominos have two sides)

Make sure the students know how to glue them as sometimes they will stick them all at the top.

Once they have finished, they can complete the centre part of the board and describe their favourite pet

I will add a started version at the bottom. (the board should be printed on A3 and the dominos on A4.)
